

6516207655.txt

I drive truck and can get and plan my daily travels by tuning into the radio change before i get in a postion that i can't get out of . The federal dot has limited our days to 14 hours from when you start the finish then a 10 hour break. i get a chance to plan my day before i start if possible. Please DO NOT allow this programing to end.

Thanks,
Pete
